Default marks and grading scales are already set for your school. You can change these marks and scales to match the needs of your school. BE VERY CAREFUL! ANY CHANGES WILL AFFECT ALL CURRENT AND PAST GRADES IN REPORTWRITER!!

GRADE VALUE/MINIMUM

Each mark has a VALUE and a MINIMUM score. In the current settings, for example, an A+ has an absolute value of 100% (value column) and a minimum value of 99%. The mark of A- has an absolute value of 92% and a minimum value of 90. So if an RW teacher enters an

A+ as a grade, the 0-100% override mode in RW will show a 100%

A as a grade, the 0-100% override mode in RW will show an 95%

A- as a grade, the 0-100% override mode in RW will show an 92%

Conversely, if a teacher enters a:

99% as a grade, the A-F override mode in RW will show an A+.

98% as a grade, the A-F override mode in RW will show an A.

93% as a grade, the A-F override mode in RW will show an A-.

GRADING SCALES AND MARKS

You can also choose which marks work with which type of grading scale. Notice that the O/S/N grades are only chosen to be used with that type of grading scale.

INCOMPLETES

You may want to change the value of a mark. A good example of this is the use of I for Incomplete.

1. Currently, the incomplete is set with a value and a minimum of -1. This prevents all grades for this subject or class from calculating a GPA. This inability to calculate a GPA remains as long as you have the I (Incomplete) for a grade.
2. You might want to keep the mark but not have it average in with other marks. To do this, remove the -1 in each of the columns and leave the boxes blank.
